To guide a model towards the desired output and reduce irrelevant or incorrect responses, it is important to provide clear and specific instructions, which can be achieved through longer prompts that offer more clarity and context.

In [17]: prompt = f"""As a senior English teacher,\
how will you get students interested in learning English in class? \
Please provide three different methods"""\
response = get_completion(prompt)\
print(response)

1. Incorporate multimedia and technology: Utilize videos, interactive websites, and online resources to make the learning experience more engaging and dynamic. For example, show short films or documentaries related to the topics being studied, use online quizzes or games to review vocabulary or grammar concepts, or encourage students to create digital presentations or blogs to showcase their understanding of a particular literary work or writing style. By integrating technology, students can explore English in a more interactive and contemporary way, fostering their interest and motivation.
2. Connect English to real-life situations: Help students understand the practical applications of English in their daily lives. For instance, organize debates or discussions on current events or controversial topics, encouraging students to express their opinions and practice their speaking and listening skills. Additionally, assign projects that require students to research and present on a specific career or industry where English proficiency is essential, such as journalism, international business, or tourism. By highlighting the relevance of English in various contexts, students will be more motivated to learn and improve their language skills.
3. Foster a creative and inclusive classroom environment: Encourage students to express themselves through creative writing, poetry, or storytelling. Provide opportunities for them to share their work with their peers, either through presentations or by creating a class blog or magazine. Additionally, incorporate diverse literature and texts that reflect different cultures, perspectives, and experiences. By embracing diversity and allowing students to explore their creativity, they will feel more connected to the subject matter and develop a deeper appreciation for the English language.

In [20]: text1 = f"""One day, a pregnant mouse was looking around in the zoo. \
Turns out, it's looking for food to eat. \
It had not eaten for five days. \
In the evening, the little mouse climbed to the ear of the elephant and said: "Dear elephant uncle, do it well." \
Please let me get into your stomach and eat something. \
If you don't agree, I will soon starve to death." The little mouse's eyes were full of begging. \
Later, the little mouse also gave birth to a litter of little mice in the elephant's belly. \
Later, this litter of little mice gave birth to many, many little mice. \
Now, the belly of the elephant can be lively, old and young, there are more than a thousand mice. \
They ate all the food in the elephant's belly and ate its inner organs. The children outside the iron fence looked at the fallen elephant. \
They were very sad, but they did not know what was going on."""\

In [49]: prompt = f"""If you are a senior AI teacher, how would you recommend beginners of machine learning to learn machine learning? \
Please provide a 100 word plan"""
response = get_completion(prompt)
print(response)
```

As a senior AI teacher, I would recommend the following 100-word plan for beginners to learn machine learning:

1. Start with the basics: Understand the fundamentals of statistics, linear algebra, and programming languages like Python.
2. Study theory: Learn about different machine learning algorithms, their strengths, and weaknesses. Understand concepts like supervised and unsupervised learning, regression, classification, and clustering.
3. Hands-on practice: Implement algorithms using popular libraries like scikit-learn and TensorFlow. Work on small projects to gain practical experience.
4. Explore real-world datasets: Analyze and preprocess data, perform feature engineering, and evaluate model performance.
5. Join online communities: Engage in forums, participate in Kaggle competitions, and collaborate with peers to learn from their experience.

[click to expand output; double click to hide output](#) ch papers, and attend conferences to keep up with the latest advancements in the field.

```
In [50]: prompt = f"""As an experienced fitness coach, please provide three suggestions for those who need to exercise their arms"""
response = get_completion(prompt)
print(response)
```

1. Incorporate compound exercises: Compound exercises involve multiple muscle groups and are highly effective for strengthening and toning the arms. Some great compound exercises for the arms include push-ups, pull-ups, and dips. These exercises engage the chest, shoulders, triceps, and biceps, providing a comprehensive arm workout. Aim to include these exercises in your routine at least twice a week.
2. Focus on progressive overload: To see continuous improvement in arm strength and muscle definition, it's important to progressively challenge your muscles. This can be achieved by gradually increasing the weight or resistance used during exercises. For example, if you're using dumbbells for bicep curls, start with a weight that allows you to perform 8-12 reps with proper form. As you get stronger, gradually increase the weight to keep pushing your muscles to adapt and grow.
3. Don't neglect the triceps: While many people focus primarily on biceps for arm exercises, it's equally important to target the triceps. The triceps make up a significant portion of the arm and contribute to overall arm strength and definition. Incorporate exercises like tricep dips, tricep pushdowns, and overhead tricep extensions into your routine. By giving equal attention to both biceps and triceps, you'll achieve a well-rounded and balanced arm workout.

```
In [6]: prompt = f"""As a psychological teacher, you provide 3 suggestions for introverted people to become extroverted"""
response = get_completion(prompt)
print(response)
```

1. Gradual exposure and practice: Encourage introverted individuals to gradually expose themselves to social situations and practice interacting with others. Start with small steps, such as attending social gatherings with close friends or joining a club or group with shared interests. This allows them to build confidence and develop their social skills over time.
2. Develop active listening skills: Introverted individuals often excel at listening and observing others. Encourage them to leverage this strength by actively listening to others during conversations. This not only helps them engage with others but also allows them to understand different perspectives and build deeper connections.
3. Set realistic goals and celebrate progress: Becoming more extroverted is a process that takes time and effort. Encourage introverted individuals to set realistic goals for themselves, such as initiating conversations with new people or speaking up in group settings. Celebrate their progress and acknowledge their efforts, as this can boost their confidence and motivation to continue stepping out of their comfort zone.

EG who are you

I am ChatGPT, a large language model created by OpenAI. I am based on the GPT-3.5 architecture, which means I am a sophisticated AI designed to understand and generate human-like text based on the data I have been trained on. My primary purpose is to assist and provide information on a wide range of topics to the best of my ability. If you have any questions or need help with something, feel free to ask!

EG

I want you to act as an English translator, spelling corrector and improver. I will speak to you in any language and you will detect the language, translate it and answer in the corrected and improved version of my text, in English. I want you to replace my simplified A0-level words and sentences with more beautiful and elegant, upper level English words and sentences. Keep the meaning same, but make them more literary. I want you to only reply the correction, the improvements and nothing else, do not write explanations. My first sentence is "istanbulu cok seviyom burada olmak cok guzel"

"Istanbul holds a profound place in my heart; being here is truly exquisite."

EG

As a psychological teacher, you provide 3 suggestions for introverted people to become extroverted

1. Encourage the cultivation of social adeptness by initiating gradual exposure to social settings, fostering comfort in interacting with others.
2. Emphasize the significance of introspection, enabling the development of self-awareness and understanding one's strengths and limitations in social interactions.
3. Advocate for the exploration of new interests and activities, thereby expanding one's horizons and creating opportunities for engaging with diverse groups of individuals.

Your task is to generate a short summary of a product review from an ecommerce site. Summarize the review below, delimited by triple backticks.

Review: ```The taste, taste, and taste are not as delicious as other brands that I bought before. They all have ice packs, which at least ensure that they are not damaged in the hands of customers. If they are damaged, they cannot return or resend them. Overall, I won't buy any more fresh, sweet, and spicy food, but I actually tasted the taste of pickled peppers. I was also drunk and the quantity of the product was not enough. There was a lot of soup and bamboo shoots, with only a few claws, and they were still very broken. The packaging quality didn't come in ice packs. The delivery was delivered in two days and two nights, and the weather temperature was 25 °C, so I should be able to eat it. If it gets too hot, it might break,. It's not SF Express.```

Summary: The reviewed product received mixed feedback. The taste was not as appealing as other brands the customer tried before. The presence of ice packs prevented damage during delivery, but there were concerns about the return and replacement policy for damaged items. The quantity of the product was insufficient, especially with an excess of soup and bamboo shoots but few claws. The packaging lacked ice packs, potentially impacting product quality during delivery. The delivery time was reasonable, but the customer was worried about high temperatures affecting the product. Overall, the cus

Your task is to generate a short summary of a product review from an ecommerce site. Summarize the review below, delimited by triple backticks.in at most 50 words. and focusing on any aspects that mention quality of the product

Review: ```The taste, taste, and taste are not as delicious as other brands that I bought before. They all have ice packs, which at least ensure that they are not damaged in the hands of customers. If they are damaged, they cannot return or resend them. Overall, I won't buy any more fresh, sweet, and spicy food, but I actually tasted the taste of pickled peppers. I was also drunk and the quantity of the product was not enough. There was a lot of soup and bamboo shoots, with only a few claws, and they were still very broken. The packaging quality didn't come in ice packs. The delivery was delivered in two days and two nights, and the weather temperature was 25 °C, so I should be able to eat it. If it gets too hot, it might break,. It's not SF Express.```

Summary: The product's taste didn't match the customer's expectations compared to other brands. Although it had ice packs for protection, concerns were raised about damaged items, limited quantity, and poor packaging quality without ice packs. Delivery time was reasonable, but worries about potential heat damage were mentioned.

EG

Your task is to extract relevant information from a product review from an ecommerce site to give feedback to the quality of product 

From the review below, delimited by triple quotes extract the information relevant to quality. Limit to 30 words.

Review: 'The taste, taste, and taste are not as delicious as other brands that I bought before. They all have ice packs, which at least ensure that they are not damaged in the hands of customers. If they are damaged, they cannot return or resend them. Overall, I won't buy any more fresh, sweet, and spicy food, but I actually tasted the taste of pickled peppers. I was also drunk and the quantity of the product was not enough. There was a lot of soup and bamboo shoots, with only a few claws, and they were still very broken. The packaging quality didn't come in ice packs. The delivery was delivered in two days and two nights, and the weather temperature was 25 °C, so I should be able to eat it. If it gets too hot, it might break,. It's not SF Express.'

Extracted information relevant to quality:

 Regenerate

1. Taste not as delicious as other brands.
2. Ice packs ensure minimal damage during delivery.
3. Concerns about damaged items and return policy.
4. Poor packaging quality without ice packs.
5. Worries about potential heat damage during delivery.

EG

What is the sentiment of the upping product review

The sentiment of the product review is mostly negative. The reviewer expresses disappointment with the taste, quantity, and packaging quality of the product. They also have concerns about damaged items and the return policy. Overall, the review conveys dissatisfaction with the product and its delivery.

EG

Identify a list of emotions that the writer of the upping review is expressing. Include no more than three items in the list. Give your answer by point

1. Disappointment
2. Frustration
3. Dissatisfaction

EG

Is the writer of the upping review expressing dissatisfaction? Give your answer as either yes or no. 

Yes.

< 2 / 2 >

EG

Identify the following items from the review text:

- Sentiment (positive or negative)
- Is the reviewer expressing anger? (true or false)
- Item purchased by reviewer
- Company that made the item
- What are the aspects of dissatisfaction

- Sentiment: Negative
- Is the reviewer expressing anger? False
- Item purchased by reviewer: Fresh, sweet, and spicy food (specific item not mentioned)
- Company that made the item: Not mentioned in the review text.

Aspects of dissatisfaction:

1. Taste not as delicious as other brands.
2. Quantity of the product was not enough.
3. Poor packaging quality without ice packs.
4. Concerns about damaged items and return policy.
5. Worries about potential heat damage during delivery.

    ind = n % 10
    if n == hun ** 3 + ten ** 3 + ind ** 3:
        print(n, end=' ')
print()
```

EG

Write a product review for Lemon Chicken Feet, which requires 3 advantages and 3 disadvantages.express dissatisfaction

Product Review: Lemon Chicken Feet

Advantages:

1. Zesty Flavor: The lemon-infused seasoning adds a tangy and refreshing taste to the chicken feet, providing a unique and delightful culinary experience.
2. Tender Texture: The chicken feet are tender and well-cooked, offering a satisfying mouthfeel with each bite.
3. Convenient Packaging: The product comes in a user-friendly package, making it easy to store and enjoy anytime.

Disadvantages:

1. Overwhelming Lemon: While the lemon flavor is intended to be a highlight, it tends to overpower the natural taste of the chicken feet, leading to an imbalanced flavor profile.
2. High Sodium Content: The seasoning appears to be excessively salty, which might not be suitable for those with dietary restrictions or sodium-sensitive individuals.
3. Inconsistent Quality: On some occasions, I encountered pieces with less meat and more bone, resulting in an unsatisfactory eating experience.

Overall, I was disappointed with the lemon chicken feet due to the overpowering lemon taste, high sodium content, and inconsistent quality of the product. It didn't meet my expectations for a well-balanced and enjoyable snack.

【英文原文】

(The prodct is very usefull, it help me to organize my stuff and keep my desk clean. It is also easy to assemble and the quality is great. I really love it!)

【拼写及语法纠错】

The product is very useful; it helps me organize my stuff and keep my desk clean. It is also easy to assemble, and the quality is great. I really love it!

【中文翻译】

这个产品非常有用，它帮助我整理东西并保持桌面整洁。装配也很简单，质量也很好。我真的很喜欢它！

【优质淘宝评论风格】

【优点】

- 多功能：这款产品非常实用，能帮助我整理各种物品，使我的桌面保持整洁，真是大大提高了我的工作效率！
- 简单装配：组装过程非常简单，不需要繁琐的工具，省时省力，让人轻松完成搭建。
- 高品质：产品的质量真的很棒，材料坚固耐用，让我觉得物有所值。

【缺点】

- 尺寸限制：有些较大的物品可能无法完全放进去，希望能提供更大尺寸的选择。
- 设计局限：产品的设计有点单一，希望能有更多样化的颜色和款式可选，让消费者有更多选择。
- 价格略高：相比其他类似产品，这款产品的价格稍微偏高一些，但质量确实也不错。

【总结】

这款产品确实很实用，让我整理东西变得更加轻松方便，而且质量可靠。尽管有一些局限性，但总体来说，它是一个不错的选择。如果能在尺寸和设计上做进一步改进，并在价格上做些优惠，相信会更受欢迎！

### 【拼写及语法纠错】

The lemon-infused seasoning adds a tangy and refreshing taste to the chicken feet, providing a unique and delightful culinary experience. The chicken feet are tender and well-cooked, offering a satisfying mouthfeel with each bite. The product comes in a user-friendly package, making it easy to store and enjoy anytime. While the lemon flavor is intended to be a highlight, it tends to overpower the natural taste of the chicken feet, leading to an imbalanced flavor profile. The seasoning appears to be excessively salty, which might not be suitable for those with dietary restrictions or sodium-sensitive individuals. On some occasions, I encountered pieces with less meat and more bone, resulting in an unsatisfactory eating experience.

### 【中文翻译】

这款柠檬味调料为鸡脚增添了一种微酸清新的口感，提供了独特而令人愉悦的烹饪体验。鸡脚嫩滑熟透，每一口都带来令人满足的口感。产品采用用户友好的包装，方便存储和随时享用。然而，柠檬味虽为亮点，但有些过于强烈，导致口感失衡。调料的咸味似乎过多，可能不适合有特殊饮食需求或对钠敏感的人。有时，会遇到肉少骨多的情况，导致用餐体验不佳。

You are a deep learning teacher and your students are beginners. Please provide three suggestions to help your students learn the Pytorch framework

1. **Start with the Basics:** Begin by introducing your students to the fundamental concepts of PyTorch. Teach them about tensors, which are the building blocks of PyTorch, and help them understand how to create, manipulate, and perform basic operations on tensors. This foundational knowledge will form the basis of their understanding of PyTorch.
2. **Hands-on Projects:** Encourage your students to engage in hands-on projects and exercises that involve implementing various machine learning models using PyTorch. Provide them with small coding challenges and guide them through the process of building simple neural networks, such as feedforward networks or convolutional neural networks (CNNs). Practical experience will solidify their comprehension and boost their confidence in using PyTorch.
3. **Utilize Learning Resources:** Direct your students to reputable learning resources, such as official PyTorch documentation, tutorials, and online courses. These resources offer comprehensive explanations and examples that can help your students dive deeper into specific topics and learn from real-world applications. Additionally, encourage them to join PyTorch communities or forums where they can seek help and interact with other learners and experts.

By following these suggestions, your beginner students will be on their way to mastering the PyTorch framework and developing their skills in deep learning. Remember to provide continuous support and feedback throughout their learning journey to keep them motivated and engaged.

How can ChatGPT help me with daily life and work? Focus on life skills and work efficiency, and provide them in points

ChatGPT can be a valuable assistant in your daily life and work, enhancing your life skills and work efficiency in the following ways:

Life Skills:

1. **Language Practice:** Improve your language proficiency by engaging in conversations with ChatGPT, which can help you practice writing, grammar, and vocabulary.
2. **Decision Making:** Seek advice from ChatGPT for everyday decisions, such as choosing a restaurant, making travel plans, or selecting gifts, based on its knowledge and diverse perspectives.
3. **Learning and Research:** Use ChatGPT to quickly find information and answers to various questions, enabling you to expand your knowledge and stay informed on a wide range of topics.
4. **Time Management:** ChatGPT can help you create to-do lists, set reminders, and organize your schedule, ensuring better time management and productivity.
5. **Problem Solving:** Discuss challenges or dilemmas with ChatGPT to gain different insights and approaches, helping you make more informed decisions.

### Work Efficiency:

1. **Research and Analysis:** ChatGPT can assist in gathering relevant data and providing insights for your research projects, saving time and effort in data analysis.
2. **Content Creation:** Utilize ChatGPT to draft blog posts, articles, or reports, generating initial ideas and content that you can further refine.
3. **Coding Assistance:** Seek programming help from ChatGPT for coding problems or syntax issues, making debugging and troubleshooting more efficient.
4. **Task Automation:** Use ChatGPT to automate repetitive tasks, such as generating reports or sending emails, streamlining your workflow and boosting productivity.
5. **Meeting Preparation:** Prepare for meetings by discussing talking points and potential questions with ChatGPT, enabling you to be better prepared and confident during discussions.
6. **Language Translation:** ChatGPT can help translate text or phrases, facilitating communication with colleagues or clients from different linguistic backgrounds.
7. **Project Planning:** Brainstorm project ideas with ChatGPT, allowing you to outline goals and strategies for successful project execution.

By leveraging ChatGPT in your daily life and work, you can enhance your problem-solving abilities, improve efficiency, and access valuable information, making it a valuable tool to complement and assist you in various tasks and responsibilities.

I want you to act as a movie critic. You will develop an engaging and creative movie review. You can cover topics like plot, themes and tone, acting and characters, direction, score, cinematography, production design, special effects, editing, pace, dialog. The most important aspect though is to emphasize how the movie has made you feel. What has really resonated with you. You can also be critical about the movie. Please avoid spoilers. write a movie review for the movie: 大闹天宫

## Movie Review: 大闹天宫 (Journey to the West: Conquering the Demons)

Prepare to embark on an enchanting cinematic journey as "大闹天宫" (Journey to the West: Conquering the Demons) unfolds before your eyes. Directed by Stephen Chow, this visually captivating fantasy adventure promises a delightful experience that is bound to leave an indelible mark on your heart and mind.

### Plot & Themes:

"大闹天宫" artfully weaves a fresh and inventive narrative, offering a contemporary reimagining of the timeless Chinese classic, "Journey to the West." The film follows the exploits of Xuan Zang, a determined demon hunter, who embarks on a quest to eradicate the malevolent creatures threatening humanity. Beneath the fantastical surface, the movie delves into profound themes of compassion, redemption, and the complexities of good and evil. The clever blending of humor and action drives the plot, keeping the audience engaged from start to finish.

### Acting & Characters:

The stellar performances by Wen Zhang as Xuan Zang and Shu Qi as Miss Duan elevate the film to new heights. Their impeccable chemistry adds depth to their evolving relationship, infusing the story with warmth and humor. Each character is imbued with shades of

I hope you can act as a code interpreter. Firstly, I will input a string of code. Your first task is to check if there are any errors in this code, and if so, make modifications. After making the modifications, continue to perform the three mentioned tasks; If there is no output, output "none" and then display the output of this code. If there is no output, display "none"; The second task is to determine which programming language this code is in. The third task is for you to explain the code I input sentence by sentence, using simple Chinese vocabulary to make the explanation easier to understand. The format of the code you explain is a sentence of code, followed by a Chinese explanation. Each task is answered in dots, and the answer is output in Chinese

请提供您要我解释的代码字符串。我将首先检查代码是否有错误，如果有错误，我会进行修改，并继续执行三个任务。如果代码没有输出，我将显示“none”，然后输出代码的输出结果。第二个任务是确定该代码所属的编程语言。第三个任务是逐句解释您输入的代码，使用简单的中文词汇来使解释更易于理解。请提供您的代码字符串。

EG <? php-echo'当前php版本: ' . phpversion () ;

任务1: 检查代码并显示输出结果。

代码有错误。在PHP语言中，正确的写法是使用`<?php`来开启PHP代码块，并且`phpversion()`函数的括号前不应该有空格。

修改后的代码：

```
php
Copy code
<?php
echo '当前php版本: ' . phpversion();
```

任务2: 确定编程语言。

这段代码是用PHP语言编写的。

Regenerate

任务3: 逐句解释代码。

- `<?php`：这行代码用于开启一个PHP代码块，告诉解析器后面的代码是PHP代码。
- `echo '当前php版本: ' . phpversion();`：这行代码使用PHP的`echo`语句来输出一段文本和一个函数的返回值。`phpversion()`函数用于获取当前PHP版本的信息，并将其与文本`'当前php版本: '`连接起来，然后输出到屏幕上。结果将是类似于"当前php版本: 7.4.3"的输出。

EG

你好，请帮我检查以下文字内容是否有语法，错别字和标点等常见错误

当然，请将您要检查的文字内容复制粘贴在下方，我会帮您检查是否有语法、错别字和标点等常见错误。

EG

我会给你一段内容，请提取其中的要点，用几个词进行概括

好的，请提供您要分析的内容，我将尽力提取其中的要点，并用几个词进行概括。

As an experienced fitness coach, please provide a one week dumbbell training plan for beginners, clearly specifying what to do each day and how many groups each project requires.

Sure! Here's a one-week dumbbell training plan for beginners. This plan incorporates full-body workouts to target major muscle groups and promote overall strength and conditioning. Before starting any new exercise program, make sure to warm up adequately and consult with a fitness professional if you have any pre-existing health conditions or concerns.

#### Day 1: Full-Body Dumbbell Workout

1. Goblet Squats - 3 sets of 10-12 reps
2. Dumbbell Bench Press - 3 sets of 10-12 reps
3. Bent-Over Dumbbell Rows - 3 sets of 10-12 reps
4. Dumbbell Shoulder Press - 3 sets of 10-12 reps
5. Dumbbell Bicep Curls - 2 sets of 12 reps
6. Dumbbell Tricep Extensions - 2 sets of 12 reps
7. Plank - 3 sets of 20-30 seconds

you are a senior AI teacher, how would you recommend learning machine learning for beginners? Please provide a plan in one month

As a senior AI teacher, I understand that learning machine learning can be overwhelming for beginners. So, here's a one-month plan to get you started on your machine learning journey. This plan is designed to provide you with a solid foundation and practical experience:

#### Week 1: Building the Foundation

##### Day 1-2: Introduction to Machine Learning

- Understand what machine learning is and its applications.
- Learn about supervised, unsupervised, and reinforcement learning.

##### Day 3-4: Python Basics

- Get familiar with Python programming language.
- Learn about data types, variables, loops, and conditional statements.

##### Day 5-7: Libraries for Data Manipulation

- Learn NumPy for numerical computations.
